### **Schlecht joins Firestone Public Works department**

Scott Schlecht has joined the Firestone Public Works department as a heavy equipment operator to work primarily in streets maintenance, including gravel and asphalt road work and snow removal.

Schlecht is not new to the Firestone community, working from 2000 to 2006 for the Public Works department. From there he worked for two years for Weld County in the grader division, before working the last three years for the grader division in Pitkin County, Colorado.

“Firestone is a great community to work for,” Schlecht said. “The Public Works department is a strong team and a good group of workers, which is the key to a great division.”
